**POINT 1. NON APPEARANCE OF SHIPPING BILL ON THE WEBSITE OF DGFT FOR CLAIMING EXPORT BENEFITS**

The Assistant Commissioner, EDI clarified that the DG Systems has informed to follow the following procedures for transmitting the Shipping Bills to the DGFT site in the following situations:

- (i) **Where the SB has not integrated with EGM (not in History) and is in EGM error queue** - The DG Systems has suggested that the exporters be guided to get their EGM error rectified and SB be moved to History after successful EGM integration. Unless it is integrated, SB would not be transmitted to DGFT for MEIS benefit.
- (ii) **Where the SB has Reward Item as "Y" and not visible in DGFT site** - it was suggested that the customs location may use "Retransmit SB" in Amend Role to retransmit the SB. Once successfully retransmitted, the DGFT website would reflect the same within 2 days. If the same is not reflected, the respective Customs location could write to Helpdesk.
- (iii) **Where the SB has Reward item as "N" and the same is not visible in DGFT site** - It was stated that in respect of SB date after 30.9.2015 the SB would not be sent to DGFT for MEIS benefit, as was decided between the two ministries. Further it was stated that in respect of SBs filed between 1.4.2015 to 30.9.2015 and EGM submitted successfully, such SB transmission to DGFT will be done directly by DG Systems.

The Chairman informed the representatives of the exporters to furnish a list of the Shipping Bills which are not being transmitted to the DGFT site to the respective jurisdictional Assistant Commissioner of ICD.

Commissioners have been directed to coordinate with Shri Javed of NIC to upload the said Shipping Bills. In case the Shipping Bills are not being reflected in the DGFT site, then in such a case to send a mail to DG Systems to resolve the issue at the earliest.

**POINT 2. – COMMON AD CODE REGISTRATION FOR ALL PORTS**

The Chairman informed that the AD Code registration at the Ports is not a cumbersome procedure and the AD Code registration applications are being processed by the ICD officers without any delay. Moreover each Port has an independent status with specific location and with specific location code for easy correlation and identification among the Ports, and it's an EDI systems requirement, which needs to be followed as per the prescribed system policy. As such the request for one time AD Code registration with one Port to be used for all Ports cannot be considered.
